

### Jonathan Hospitalized!!

April 2 - Friday night when Julie went to check on Jonathan, she found him semi-awake running a temperature and having trouble breathing. After unsuccessfully attempting to ease his breathing, Julie piled him into the car and over to the emergency room at Palomar Medical Center where he was brought in rather quickly and immediately given a respiratory treatment.

After two respiratory treatments, Jonathan was admitted into the hospital around 4am Saturday morning with the diagnosis of low-grade pneumonia. They administered respiratory treatments throughout Saturday as well as Tylenol to combat the temperature and he finally showed improvement late Saturday night.

A healthy breakfast Sunday morning and he was allowed to go home with Julie and Richard that afternoon. The nurses were great in the special children's section of the hospital, but the Knowles' were happy to be back home!

Annual Trek to Yosemite May 27- As always, the Knowles' enjoy the yearly trek up to Yosemite to see the beautiful waterfalls.

Jonathan loved to climb on all the rocks down by the river, but his parents had to keep a close eye on him!!
